

**MRS. W. D. PEARSON HOSTESS AT LOVELY GARDEN PARTY.**

Mrs. W. D. Pearson entertained Wednesday afternoon at a lovely garden party honoring the members of her Sunday School class who are also members of the Elba High graduating class. The following popular young ladies belong to this group: Misses Irene Devane, Eleanor Connor, Eva Hammond, Hazel Bonneau, Ferrel Harper, Eugene Grissett, Eddie Boutwell and Mercer Brunson.

The garden was a scene of rare beauty, with tall hickories, holding various colored flowers and tied with pink tulle.

Mrs. Sam Rowe, Jr., greeted the guests at the door and ushered them to the receiving line composed of Mrs. W. D. Pearson, Mrs. B. S. Franklin and the honorees.

Mrs. Pearson was becomingly given of in a green georgette trimmed with red lace. Mrs. Franklin wore a rose beige georgette. Miss Irene Devane, first honor student of the class, wore a pink tulle. Miss Eleanor Connor, second honor student, wore a green tulle. Miss Eva Hammond, president of the Sunday School class, wore a green tulle with a shoulder bouquet of hand-made roses. Miss Hazel Bonneau, secretary of the class, wore a blue tulle. Miss Ferrel Harper wore a blue tulle with over drapery of lace. Miss Eugene Grissett was lovely in an orchid imported organza over pink satin. Miss Eddie Boutwell was becomingly dressed in an American beauty tulle with over trimmings. Miss Mercer Brunson wore a yellow organza over tulle of the same shade. Misses Gladys Jackson and Ruby Folson presided at the register table. Miss Gollie Rowe ushered the guests from the registry to the punch table. Delightful punch, sandwiches and other refreshments were served by Misses Gladys Jackson and Ruby Folson.

Auburn continues to record a fine winter. The gardeners are busy preparing the soil for the coming year. The gardeners are busy preparing the soil for the coming year. The gardeners are busy preparing the soil for the coming year.

Which of These Men Do YOU Feel Like? — After Eating

This was one of the most beautiful of a series of social affairs that have been given for members of the graduating class. Seventy five guests called during the hours from 4:30 to 6.

**WINTER LEGUMES MADE FAIR SHOWING**

AUBURN, Ala.—Special.—As a whole, the Alabama winter legume crop came through the winter in fair condition despite a hard winter. However, the results were disappointing to county agents and officials of the experiment station at Auburn in that monantha vetch was hit hard and is not nearly so promising as it was a year ago.

For several years the experiment station of the Alabama Polytechnic Institute has been seeking a winter legume that is resistant to cold, early and would produce seed in this section. It appeared that monantha vetch would fill the bill but the recent winter has blighted these hopes. Approximately 75 per cent of the monantha vetch planted in Alabama last fall failed to survive winter. A temperature of 10 to 12 degrees above zero was very destructive whereas during the winter of 1926-27 it was not hurt by temperatures of 4 to 6 degrees above zero. The why of this is not known.

Heavy vetch and Austrian winter peas came through in good condition. Heavy vetch remains the leading winter legume in Alabama but Austrian peas are gaining in favor. This pea is earlier than heavy vetch; it makes a big growth; and seed production appears more probable, although Prof. H. J. Fausch, director of the Auburn station, says that further investigation of this subject is needed.

Indications now are that Alabama farmers will go strong on Austrian peas and hairy vetch next fall. The seed supply will be limiting factor in planting. The Experiment Station at

**T. E. L. CLASS HOLDS BUSINESS MEETING**

The T. E. L. class held its business and social meeting Wednesday evening with Mrs. Walker Davis, hostess. The meeting was conducted by Mrs. G. E. Ryan. The business hour was presided over by the class president, Mrs. Sam Rowe, Jr.

After the business session the meeting was dismissed with prayer. A salad course was served by the hostess, assisted by Mrs. Joe Blocker.

**CIVIC IMPROVEMENT CLUB TO MEET**

The Civic Improvement Club will meet next Wednesday afternoon at the home of Mrs. Zedie Rowe, at 3:30. All officers and members are urged to attend this meeting as plans for the coming year are to be arranged, and other important business will require full attendance of as many members as possible.

**NOTICE — JUST RECEIVED A SHIPMENT OF LINEN SUITS, EACH WITH TWO PAIR TROUSERS. MAYS-VAUGHN MERC. CO.**

**Y. W. A. GAVE PROM PARTY FRIDAY**

The Y. W. A. gave a prom party Friday evening at the home of Miss Gladys Jackson, honoring the members of this organization who are to graduate from Elba High at the close of this session.

The apartments used for entertaining were artistically decorated with white and gold, which are the senior class colors.

After a most delightful evening the guests were served delicious punch and sandwiches by Misses Gladys Jackson and Ruby Folson.

The experiment station at Auburn has found that all nitrate of soda for corn should be applied 30 to 40 days after corn is planted. One to two hundred pounds per acre is recommended.

Cultivation with a section harrow run straight across or diagonally across rows of cotton or corn just as the young plants come up is one of the best cultivations in that it is destructive to weeds when they are easily killed.

The poultry department at Auburn has found that cottonseed meal makes you a protein in the poultry make for those who are producing eggs for consumption while fresh. Cottonseed meal is not recommended for producing eggs for hatching or for storing.

Half of the lambs sold for slaughter in the United States are eaten east of Ohio and north of the Potomac River. New York City takes almost a third of the supply. The three Pacific Coast States take more than a sixth of the national supply.

Writing in American Switchboard, Dwight C. Wing, says: "Agriculture needs the services of engineers, sound guidance in organization, management and marketing, and industrial leadership that has the vision, courage and ability to deal with economic reality."

Mrs. Bonnie Keltz of Baldwin County, and Miss Agnes Whitstone of Moss County, Robert Cecil Whitney Lee County, and Mildred Yates of Tallapoosa County will represent Alabama at the second national 4-H Club Congress in Washington next June.
